

Crystal Creations

CRYSTAL METAL ACRYLIC

Crystal Creations

Welcome to our new brochure. We are the world leaders in 3D sub surface laser engraving, as well as manufacturers of a comprehensive range of Crystal, Metal and Acrylic Awards.

Virtually all our products are made from the highest grade of optical crystal, which is always perfectly clear and flawless. Every piece is hand made and polished to perfection. For more contemporary pieces, we can add coloured glass, or infill surface engraved product with colour. A recent innovation is adding full colour printing to any crystal piece, so we can achieve complicated logos with accurate pantone matching or simply having a stunning image on the crystal. We use a special technique which encapsulates the printing ensuring it will not be scratched off.

The 3D laser engraved paperweights continue to be popular for product launches, office moves, thank you gifts and staff motivation gifts and we have a variety of shapes and sizes to offer.

The award and trophy designs have grown tremendously, and we cater for all tastes and budgets...whether it is for an achievement or recognition award...there's definitely one that will fit your purpose.

Additionally, you will find examples of our bespoke acrylic / lucite and metal awards. If you or your client has an idea, please call us for further ideas and options.

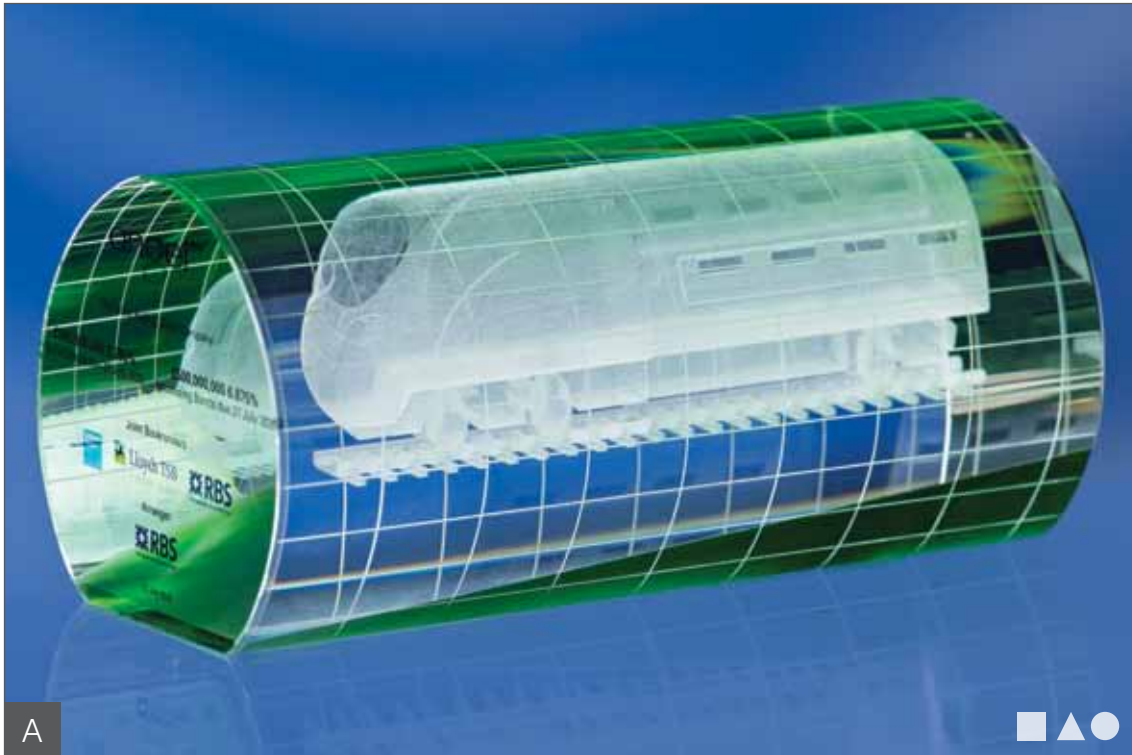

Bespoke or custom made items are becoming a greater part of our work, so if you've seen something elsewhere and you can't find it in the brochure, please contact us and we would love to quote for you.

Lastly, please enjoy browsing the brochure, enjoy the products and experience our knowledge and professionalism.

Bespoke Glass

We can create absolutely anything in glass!
We regularly make totally bespoke awards to customers exact specifications - just let us have your ideas and we can turn them into reality.

W/5000 Union Jack Award

110x160x40mm

Acrylic Encapsulation

Cast Acrylic - these are designed as bespoke pieces, made to customers specifications to embed an actual product or part in crystal clear acrylic. We can print up to 4 colours for text and logos on these.

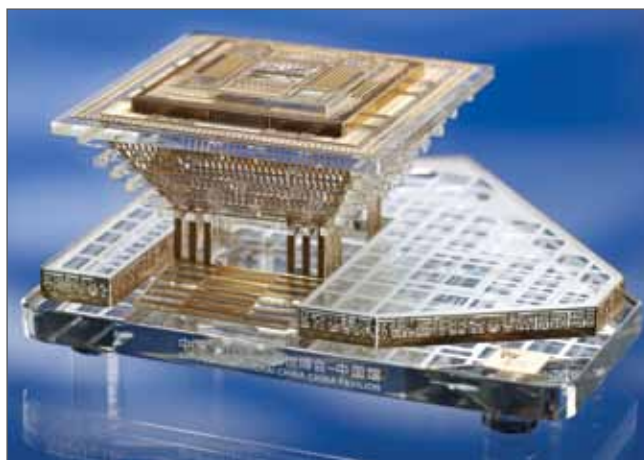

Metal Awards

Custom made awards designed to customers specifications, made from a variety of materials, zinc alloy, bronze, stainless steel, aluminium and often combined with wood, acrylic or resin.

Combination Awards

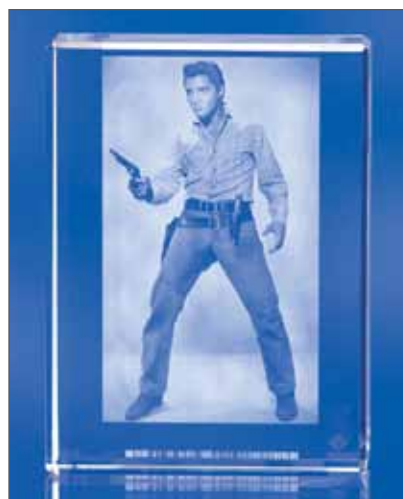

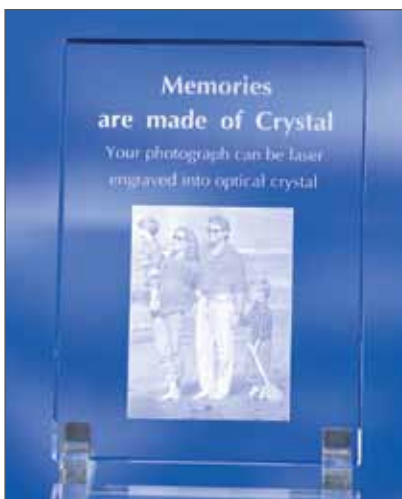

Colour Photographs

Full colour photos can be achieved placing the image between two layers of crystal.

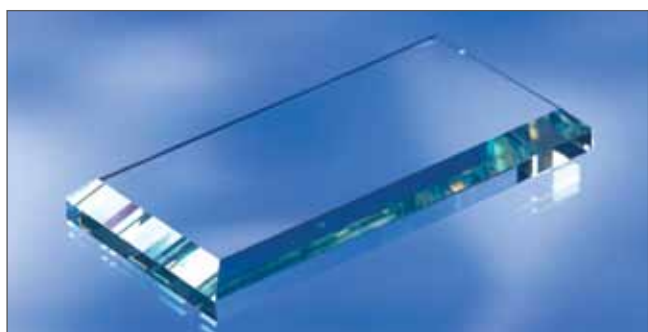

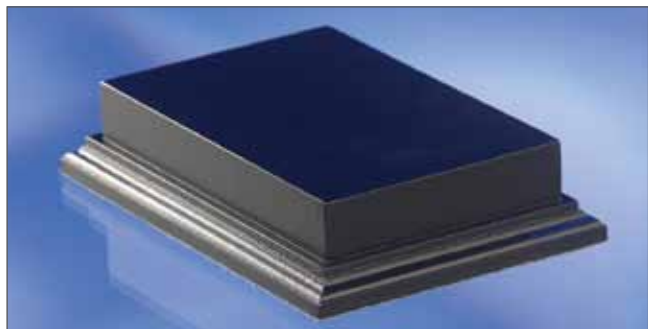

2D Laser Photographs

Photos, logos and text deep lasered into glass. 2D Laser photographs is the successful partnering of cutting edge laser technology with real photographs. Any photograph, from a faded family print to a digital image can be used and transformed into a finely detailed crystal keepsake. 2D laser photographs make beautiful personal gifts and corporate gifts. The technology has many applications for the corporate market awards and small runs.

Bases

Often customers require a base to lift the product. A selection of the bases, some of which are available with LED lights.

Packaging

This is just as important as the product for us and our customers. All items come in a quality presentation box, with either a satin lined interior or a black foam surround depending on the particular item. Custom made presentation boxes are possible with printed lids if required.
